

What's Included?

EQUIPMENT

Industrial Smart Lockers are backed by a proven track record of performance and set the industry standard for excellence.

SOFTWARE

Software empowers you to efficiently manage all your devices from a single, user-friendly dashboard.

TRAINING

Seaga provides software and equipment training to help get you started.

SETUP

Comprehensive support for initial setup and onboarding of both staff and assets.

SUPPORT

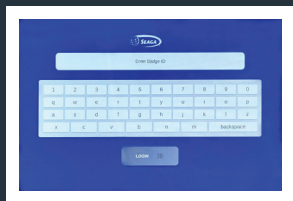

Dedicated support team is available to assist you with any inquiries or concerns.

SECURE, ACCOUNTABLE ASSET CONTROL

Seaga's Asset & Device Management solution offers a smarter way to manage high-value assets like scanners, tablets, and tools by automating distribution and collection. This can reduce losses, lower carrying costs, and improve accountability with controlled access and intuitive software that delivers insights into asset use and lifespan.

Key Benefits of Seaga Asset Management

Secure, Accountable Asset Control

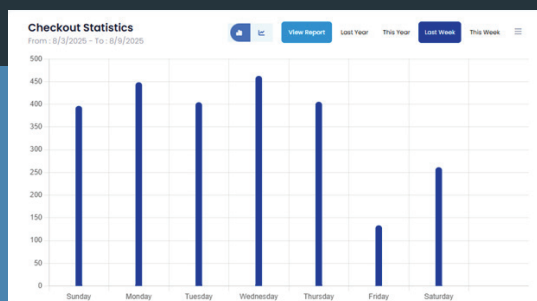

- Create Employee Accountability:** With employee access tied to asset usage, you create a system of accountability.
- Secure Storage:** Smart lockers equipped with HID card readers provide controlled access to ensure that only authorized personnel can access high-value assets.
- Reduce Device Loss (Shrinkage):** By controlling access and tracking usage, Seaga asset management reduces the risk of loss, theft, or damage, which are common challenges with unmanaged assets.

Data-Driven Oversight and Optimization

Gain Valuable Insight: Track employee usage, device lifespan, maintenance needs, and more-empowering smarter operational decisions.

Reduce Device Overstock: With visibility into actual device usage, you can avoid over-purchasing and reduce asset carrying costs.

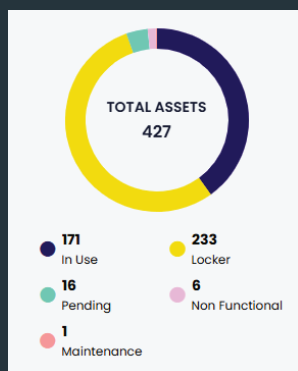

Reporting and Alerts: See real time device usage, transaction reports, and receive alerts for damaged assets, keeping managers fully informed and responsive.

Operational Efficiency

Save on Labor: Automate the manual process of issuing, returning, and logging devices-freeing up staff time for more critical tasks.

Accessibility: With automated tracking and alerting, you'll always know what's available and functioning-reducing downtime due to unavailable or broken devices.

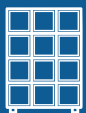

Benefits Wrap Up

- Create employee accountability
- Gain valuable visibility and insight into device usage
- Reduce device overstock
- User friendly software with reporting and alerts

- Reduce your device loss (shrinkage)
- Spend less time managing devices
- Secure storage for valuable assets
- Optimize device availability
